

Welcome back everyone. Firstly we would like to say how pleased we are in the way Y4 children have already engaged with the learning we have planned so far this term. They are always enthusiastic when faced with a new project and love outdoor learning too.

Equipment

We would like to thank and remind you all about the equipment the children need to bring in daily. Please ensure they have...

1. A well equipped pencil case (especially with pencils, glue stick, sharpener, ruler and a rubber).
2. Their reading book
3. A drinks bottle
4. Hand sanitiser.

The children have been fantastic at adapting to having these items with them and organising their desks.

Year 4 Summer Term Learning Poster

As the weather gets warmer, please could you send your child with a sun hat. If possible, please apply a 24 hour sun cream at home before your child comes into school.

As our British weather can change quickly, please also send your child with a waterproof coat (and any additional layers if needed) especially as many of our lessons are outside.

Home learning

We are asking the children to read daily. Please could you continue to listen to your child read at home at least three times a week but even more importantly to read to your child - there is plenty of research to show the huge long term benefits of this. Please could you also continue to support your child to do 10 minutes TT Rockstars at least 3 times a week.

Our class topics this term...

We are reading Danny the Champion of the World by Roald Dahl and acting out scenes in English, writing newspaper reports as well as writing for different purposes.

In our Maths lessons we are continuing with our CLICs, SAFEs and Learn Its.

In PE the children are focusing on a number of areas of outside physical activity including tennis, dodge ball, rounders and fitness.

Our History topic is Romans and we will be learning about many aspects of Roman life and the impact and influence it had on Britain.

In Science we will be learning about living things and their habitats.

We will continue with our gardening and hugely thank you for your ongoing support with our project.
