

Year 5 Learning Poster - Summer 2021
Commitment and Curiosity

We hope you are all well and are ready to take the next careful steps out of this situation and a return to "normality". Don't forget to check out the next steps we are taking in school. After such a disrupted year we are adjusting our curriculum to make this term as meaningful as possible. Mrs Ling will continue to teach the class on Thursday mornings.

Mrs Ling

French - We'll be exploring food in France from lots of different angles including the related vocabulary, food packaging, recipes and role plays in restaurants.

RE - we are continuing our exploration of how different religious groups use their scriptures and how this relates to the journey of life focusing on Hinduism and Islam.

PE

Over the next few weeks we will be having a range of activities to support the development of skills. These will be coaching from Premier Sports on Wednesday afternoons, Tennis with John from Woodbridge Tennis Club on Tuesday mornings for 4 weeks, as well as lessons with Mrs Brierley, our own qualified coach, rounders, cricket and athletics. Later in term, there will also be swimming! More details to follow.

Home Learning

Reading - 4 times a week recorded in the diary.
Weekly task set on Mathletics.
Readworks - one comprehension task a week.
Times tables or a game on Classroom. Points awarded weekly for completion of tasks.

English and Maths

Class novel - we are finishing Jason and the Argonauts. A new story will begin.....

We will be writing different pieces over the term to include fiction, non fiction and a piece from a topic area to develop our understanding of different texts and skills to make our pieces the best they can be. Maths will be focused on Learn Its, CLIC and SAFE Challenges. This will be looking at developing number skills and being able to use these in problem solving. We will also be looking at further aspects of shape, fractions, including simple percentages and measures.

History and Geography

We will be looking at Anglo Saxons and investigating their impact on our local area, as well as the impact in Britain. Later in the term, we will be studying Rivers and this will give us another opportunity to study our local area and develop skills in a number of different subjects such as Art, Music, DT and IT.

Sciences

In Science we will be looking at Electricity - circuits and it's production, and later - Light. There will also be some input on Life cycles (butterflies) and the Human Body and its development but there will be further information on this aspect.

Computer Science this term is focused on computer drawing skill and vectors. We will be working with Microbits in the 2nd half term to support our science work in light.

PSHE and Well Being

The Brain Buddies programme aims to develop students' understanding of emotional regulation by teaching skills in self-care, staying calm and problem solving. This will be a series of sessions run in conjunction with our Mental Health Support Team.

We will also be looking at our world and things we can do to maintain and make a positive difference to it including working outside where possible and looking at how we can care and improve our own environment.
