

English

- writing recounts, reviews and short stories;
- reading comprehension skills for a variety of texts;
- polishing up our grammar skills with revision games and activities.

Maths

- developing arithmetic skills;
- ratio and proportion;
- geometry and measure;
- fractions, decimals and percentages;
- Times Table Rock Stars.

Science

Classification of living things including the work of Carl Linnaeus.
How plants and animals are adapted to suit their environments.
How we see things and how light travels.
We will also be planning, carrying out and looking at the findings of our own experiments.

Year 6 Spring Term 2022

Our Learning Power focus will be on **Communication** and **Commitment**.

PE

This term we will be entering the School Games virtual football competition. We will also be focusing on dodgeball, basketball, cross country and skipping. Year 6 will also be having another four-weeks of tennis coaching and will continue to swim on Friday mornings.

PSHE

This term we will be looking at well-being, with a focus on areas including social media, resolving conflict, resilience, growth mindset and relaxation.

Music, French and RE

We'll be looking at the structure of verbs in French and using the story of "Max et les Maximonstres" to increase vocabulary and understanding of sentence structure. As part of a KS2 focus on Judaism, we'll be exploring the question of what is holiness for Jewish people: a place, a time, an object or something else? In music lessons, we will be doing some different musical activities on the glockenspiels.

Home Learning

Children will need to complete five 15-minute reading sessions each week and record their reading into their journal. This should be a combination of their reading book and Reading Buddies sessions.

Tasks will also be set on SPaG.com and Spelling Shed.

We teach ^{*}^{*} more ^{*}^{*} than
the ^{*} curriculum...^{*}
