Early Help Offer

'Early Help' describes the type of early intervention and support that can be provided when a child or young person's needs are not being met by routine comprehensive services, but do not meet the threshold for a specialist service such as Children's social care.

The Early Help Offer is about working with external and internal partners, to help children, young people and families deal with their issues as early as possible; providing information, advice and services at the right time; supporting them to resolve their concerns as their needs.

WHAT DO WE OFFER?
